Cruise Specialist

The breathtaking Kirkjufell at Grundarfjörður

Enjoy the breathtaking nature of Iceland and Greenland aboard the OCEAN DIAMOND

Thanks to two stabilizers that significantly reduce roll plus an ice-strengthened hull, the super yacht OCEAN DIAMOND is ideal for expeditions in the Arctic region. The ship's compact size allows us to take passengers off the traditional cruise route to experience off-the-beaten path highlights in Iceland and Greenland.

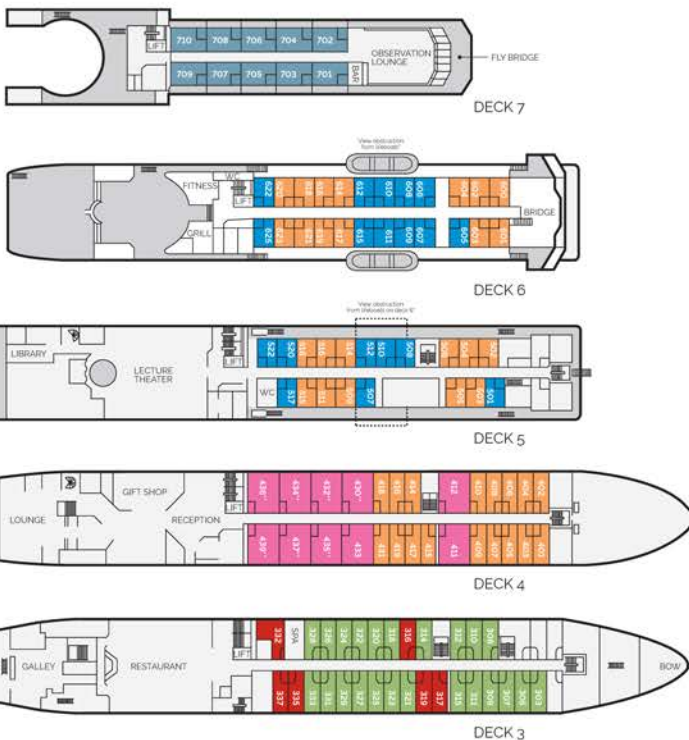

The OCEAN DIAMOND has a capacity of 224 passengers maximum and features modern onboard amenities, bilingual expedition leaders and an outstanding crew of officers.

The ship's 107 cabins and suites offer modern amenities and exterior views. The ship's Zodiacs are used for shore excursions and occasional landings. After an active day of exploration, passengers can relax by browsing books in the well-stocked library or take in spectacular Arctic scenery from the panorama salon.

We look forward to welcoming you aboard the OCEAN DIAMOND.
